

## HELPING YOUR BUSINESS TO GROW

We complete compliance work to the highest professional standards, leaving plenty of time before HMRC deadlines. This frees up time to work alongside you and really add value to your business. Just some of the ways we can do this are detailed below:

### ● MANAGEMENT INFORMATION

Prepared at regular intervals during the financial year, management information allows you to continuously assess business progress against targets and plan and forecast for the future. It enables you to respond to business opportunities in a timely way and address any challenges before they become a problem.

### ● BUSINESS ADVICE & EXPANSION PLANNING

If you're looking to grow your business, we can work with you to clarify your vision and objectives and assist you in creating a plan to help you to realise your goals.

### ● PENSION & INVESTMENT PLANNING

Whether you aspire to spend more time with your loved ones, see more of the world or perhaps start a new hobby or interest, effective pension planning can help translate these goals into reality.

### ● SUCCESSION PLANNING

An important part of planning for retirement is considering what will happen to your business after your retirement. We can help you to prepare for this time, and ensure that your business continues to provide for you and your family going forward.

### ● REMUNERATION PACKAGES

We can help you to plan the most tax efficient way to release funds from your business to pay you.

## ● MAKING TAX DIGITAL

We can help your business 'go digital' in line with HMRC's Making Tax Digital. Our experienced team will assist you in selecting the most relevant HMRC-compliant software for your business, get it up and running, enter back-dated information and ensure you have the right templates and systems set up.

Following implementation, we will work closely with you to analyse business performance in 'real time' and help you respond in a timely manner.

## ● DIVIDEND PACKAGES

Regulations relating to dividends changed in 2016. We can help you to plan carefully to minimise dividend tax liability.

## ● CASH FLOW PLANNING

Before you make any business decisions or life choices, we can help you to test out the impact of any combination of actions/events on your cashflow in both the short and long term.

## ● SYSTEMS & PROCEDURES CHECK

This ensures that your systems are strengthened against any potential HMRC challenges.

## ● ANOTHER PAIR OF EYES

We can also be another pair of eyes for your business; perhaps identifying weaknesses that could be strengthened, or opportunities such as tax planning.

Culverhouse & Co. is the trading name of Culverhouse & Co Ltd and Culverhouse Financial Planning Ltd.
